

HQJ-1 Roll

A4 Paper Cutting Machine

LINTEK

A4 Paper 1 Roll:

Performance and Characteristics

This machine is suitable for cutting big rolling packaging materials such as paper, paper-plastic, multicolor laminated material, etc.

1. It adopts PLC touch screen control, servo motor for controlling constant-length cutting.
2. It adopts pneumatic, photoelectric sensor for controlling transmission system, with photo, electric, gas together, it has the functions of easy operation, high precision, good stability, low noise.
3. This machine has the functions of the frequency converter timing device, automatic counting, stop working by alarm magnetic powder tension control, can be cutted vertically, adopt blower to get rid of waste.

Main Technical Parameters

| | |
|--------------------------|--------------------|
| Model | HQJ-1100 |
| Max.width of cutting | 1100mm |
| Max.diameter of material | Φ1400 |
| Min.width of cutting | 50mm |
| Length of cutting | 20-400mm |
| Speed | 10-140times/min |
| Total power | 4.5kw |
| Weight | 1700kg |
| Overall dimension(LxWxH) | 2200x1900x1200(mm) |
